Dear Nusaiba,

Thank you for your patience with us. Congratulations on being selected to receive the Richard E. Merwin scholarship.

To process your award, please provide us with verification from your school registration office that you will be enrolled for the next semester as a full-time student in good standing. This is the most important item here. You'll need to have this to be eligible to receive the scholarship.

After we receive the verification, we will create a profile in our financial platform, and you will receive an email from the platform, asking for address and tax information. Please fill out the information to ensure your payment. Please keep in contact with us about this; we want to make certain there are no issues.

Additionally, if you wish to change the photo you have already provided, please send me a new photo. Otherwise I will use the one you provided with your application.

Your award will consist of a free two-year student membership with IEEE and IEEE Computer Society provided that:

1. You maintain a full-time student status for two years
2. You have not already received a complimentary student membership (for the impending time period) from another source

The scholarship amount of US \$1000 will be awarded in one installment, which will be processed as soon as your profile is completed, we have your student information and we have received the pertinent bank information.

Since you are from India, we will need the following information to process the wire transfer to India:

- Bank Name
- Bank Address
- Bank City
- Bank State / Country
- SWIFT Number
- Name on Account

- Type of Account (checking or savings)
- Bank Account Number or IBAN Number
- Branch Name
- Branch Code
- IFSC #
- MICR #

Please provide all pertinent information not to delay the transfer of funds.

If you have any questions regarding your award, please contact me directly in the Washington, DC office of the IEEE Computer Society [a.maglaqui@computer.org](mailto:a.maglaqui@computer.org)

We look forward to your tenure as a Student Ambassador of the IEEE Computer Society!

Congratulations!

Tony Maglaqui
